A modern interior space featuring a large wall of dark, vertically-grained stone panels. A flat-screen TV is mounted on the wall. In the foreground, a light-colored leather armchair is visible. In the background, a dark leather sofa is positioned near a large window with horizontal blinds. A small round table with a teapot and cups sits in front of the sofa. A floor lamp on a tripod stand is also visible. The floor is made of light-colored wood. The overall atmosphere is sophisticated and contemporary.

## THE FLEXIBLE STONE LAMINATE FOR MODERN DESIGNS

Soft-Stone is a revolutionary ultra-thin stone laminate that combines the natural beauty of real stone with unmatched flexibility. Engineered to be lightweight and bendable, it's the ideal material for curved walls, rounded surfaces, and intricate design features where traditional stone simply won't work.

Its ability to conform to curves and corners opens up a world of creative possibilities for designers and architects, while maintaining the timeless look and texture of authentic stone. Whether used for interiors, exteriors, or custom applications, Soft-Stone delivers a seamless, elegant finish with effortless installation.

# SOFT-STONE™

## SOFT-STONE – REAL STONE. REFINED FLEXIBILITY

Soft-Stone is made from 100% real natural stone, offering an authentic texture and appearance that only genuine stone can provide. As a natural material, variations in colour, pattern, and tone are inherent and part of its unique character.

Each sheet of Soft-Stone is one-of-a-kind, and may not have an identical match in color or design. These natural differences are not defects, but rather a testament to the organic beauty and individuality of real stone.

We recommend reviewing samples or consulting with our team for selection guidance to ensure the right fit for your design vision.
