

UVC wall panel™

STONE CORE STRENGTH. SURFACE ELEGANCE

UVC wall panel™ — INTRODUCTION

Made from Stone Plastic Composite (SPC), the UVC Wall Panel offers both **Glossy** and **Textured** surface design, delivering a perfect blend of sophistication and resilience. Designed with **bookmatch** and **continuation** patterns, this collection creates a fluid and harmonious visual experience, making it an ideal choice for accent walls. With a generous size of **W1100mm x L2700mm x T3mm**, these panels bring seamless elegance and a refined aesthetic to any interior. Elevate your space with a luxurious, durable, and visually captivating wall solution.

UVC wall panel™ — SPECIFICATION

TRUE MARBLE TEXTURE, REDEFINED IN SPC

MATERIALS SPEC :

Stone Plastic Composite (**SPC**) is a type of rigid, durable material commonly used for flooring and wall panels. It is made from a combination of natural stone powder, PVC (polyvinyl chloride), and stabilizers, resulting in a strong, waterproof, and highly stable composite.

- Timeless Design: Adds elegance and suits both modern and classic interiors.
- Stable & Rigid : Resists expansion and contraction due to temperature changes.
- Low Cost: Offers a premium look at an affordable price point.
- Easy Installation: Lightweight and quick to install, saving time and labour.
- Low Maintenance: Durable, water-resistant, and easy to clean.
- Customisable: Available in a wide range of colours, textures, and finishes.
- Acoustic Benefits: Helps with sound absorption and reduces echo.
- Conceals Imperfections: Ideal for covering uneven surfaces or creating hidden doors.
- Termite-Free – Built to resist termite damage for long-lasting durability.
- **TUV Test Report** - Classification of surface spread of flame under **Class 2Y**
