Backlit Abstract Panel – Illuminating Style

ABSTRACT PANEL™

Ideal for Stunning Backlit Effects

Introducing the Abstract Panel, a versatile and visually striking design solution that's perfect for creating captivating backlit features in any interior space. Designed to add depth, dimension, and a modern touch, these panels come alive when illuminated from behind—highlighting their unique patterns and enhancing ambiance.

Available in a standard size of **W1200mm x H2400mm**, and in two thickness options of **2.7mm** and **4.7mm**, the Abstract Panel offers flexibility for various installation needs. Whether used for feature walls, partitions, or decorative accents, its translucent properties make it the ideal choice for dynamic lighting applications in both residential and commercial interiors.

ABSTRACT PANEL™

RESIDENTIAL — APPLICATION

Feature Wall

Bar Counter Front

Decorative Ceiling

Artwork

Abstract Panels introduce a new level of sophistication to residential design, blending art with architecture. As a feature wall, they create a striking backdrop that elevates living rooms and master suites with timeless elegance. Applied to a bar counter, they transform a functional space into a luxurious statement piece. On a decorative ceiling, Abstract Panels add depth and drama, setting the mood with refined style. Even as standalone artwork, they become a bespoke centerpiece that reflects personal taste and creativity. Designed to captivate, Abstract Panels bring a gallery-like atmosphere into the home.

ABSTRACT PANEL™

COMMERCIAL — APPLICATION

Feature Wall

Reception Counter

Decorative Ceiling

Furniture

Abstract Panels are an innovative design solution that brings artistic flair and modern sophistication into commercial environments. As a wall feature, they create striking backdrops in lobbies, offices, and retail spaces, leaving a lasting impression on clients and visitors. Applied to a bar counter, they add style and texture that enhances the atmosphere of cafés, restaurants, or lounges. On a decorative ceiling, Abstract Panels introduce depth and visual intrigue, turning functional surfaces into dynamic design statements. Even as frontage signage, they deliver a bold and creative identity that sets businesses apart. With their versatility and distinctive patterns, Abstract Panels are the perfect choice for elevating commercial interiors and branding with a contemporary edge.

ABSTRACT PANEL™

Striking Visual Impact with or without Backlighting

The **Abstract Panel** is a sophisticated design element that transforms any interior with its artistic texture and bold presence—making it an exceptional choice for feature walls. Whether illuminated or not, this panel delivers a standout effect that enhances the overall aesthetic of a space.

When **backlit**, the Abstract Panel comes to life, creating a stunning interplay of light and shadow that adds depth and movement to the design. Its translucent properties make it perfect for dramatic lighting features that capture attention.

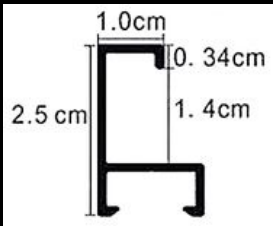

Even **without backlighting**, the panel maintains its visual appeal with intricate patterns and surface detail that add character and sophistication to any wall.

Black Aluminium Picture Frame

The Black Aluminium Picture Frame, available in a sleek **3000mm length**, offers a refined and minimalist finish that complements modern interior designs. Crafted with a slim profile, this frame is the perfect fit for showcasing Soft-Stone Translucent and Abstract Panels, enhancing their visual appeal without overpowering the artwork or surface.

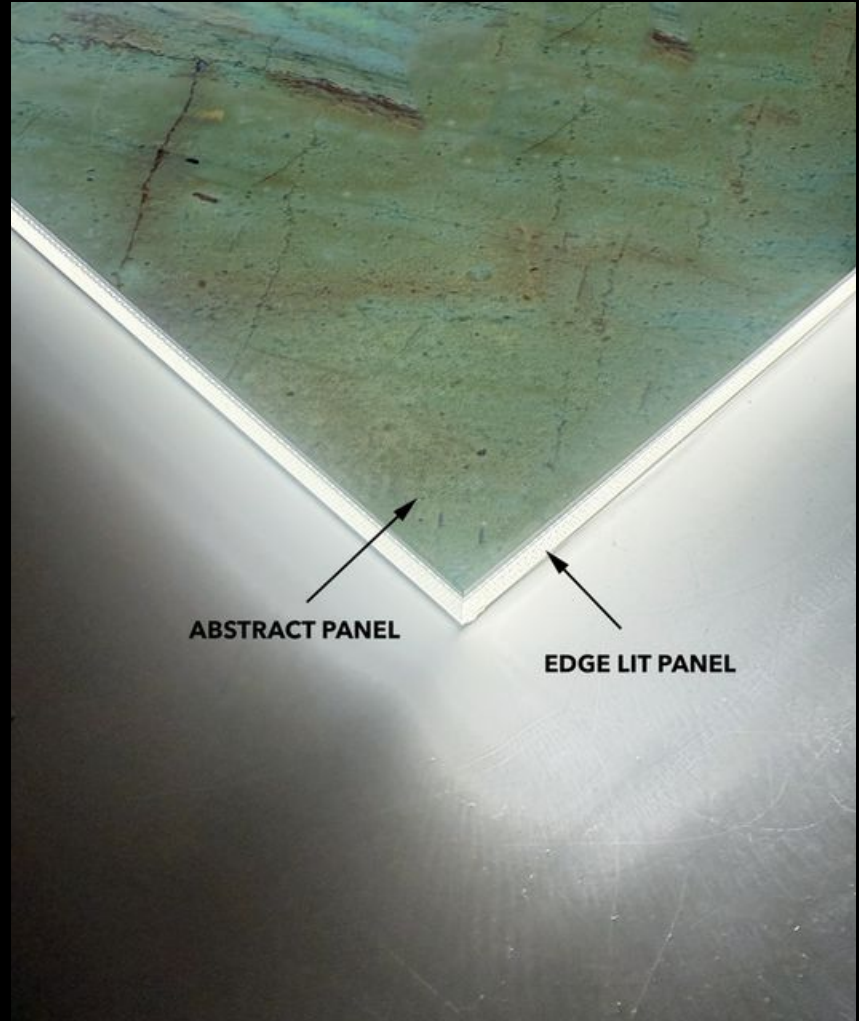

Lightweight yet durable, the black aluminium frame provides a clean, contemporary border that adds structure and sophistication to any feature wall or decorative installation.

ABSTRACT PANEL™

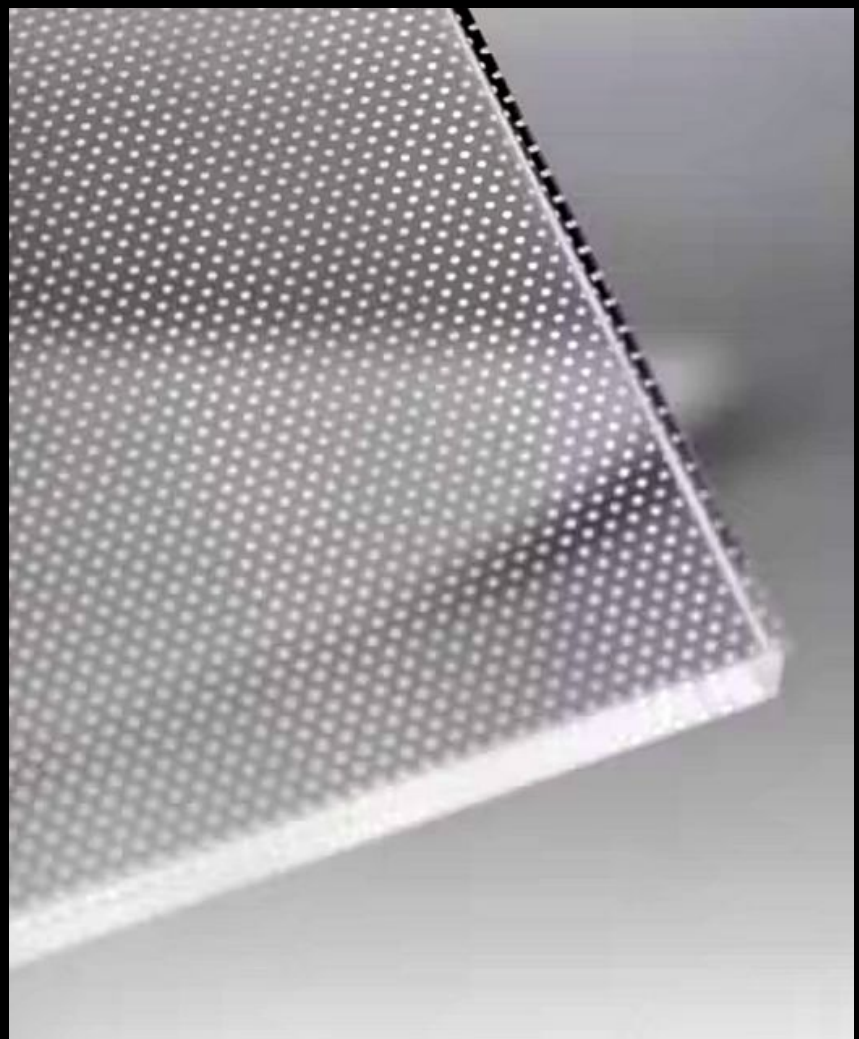

Backlighting, Redefined

The Edge Lit Panel, measuring **W1200mm x H2400mm x T6mm**, is a precision-engineered lighting solution designed to evenly diffuse backlit illumination. With its ultra-slim 6mm thickness and edge-lighting technology, this panel ensures a consistent and uniform light distribution across the entire surface. Ideal for enhancing the visual impact of **Soft Stone Translucent** and **Abstract Panels**, it brings out the full depth, color, and texture of decorative materials. Whether used in interior design, architectural features, or artistic installations, this panel offers both functionality and aesthetic refinement.

Note on Abstract Panels:

Due to the hot press printing process, slight variations in colour tone may occur across panels. Additionally, the use of LED lighting can produce different visual tones depending on the lighting colour and intensity. These variations are a natural result of the manufacturing technique and do not affect the quality or durability of the product.
If you are considering backlit applications, we recommend consulting our sales team to view the backlit effect in person before making your purchase. This will help ensure the final look meets your expectations. Alternatively, you may visit our Showroom to experience the backlit effect firsthand.
