PVC GRILLE PANEL

The PVC Grille Panel is a multifunctional design element perfect for use as a divider screen, feature wall, or decorative ceiling. Crafted from durable PVC foam board material and precisely cut with CNC technology, each panel offers clean, intricate patterns that elevate any space. **Sized at 600mm x 2400mm x 15mm**, these panels are lightweight, easy to install, and available in a variety of colours and veneer melamine finishes to suit any interior style. Whether you're creating visual separation, adding depth to a wall, or enhancing your ceiling design, the PVC Grille Panel delivers both beauty and functionality.

Material : PVC Foamboard

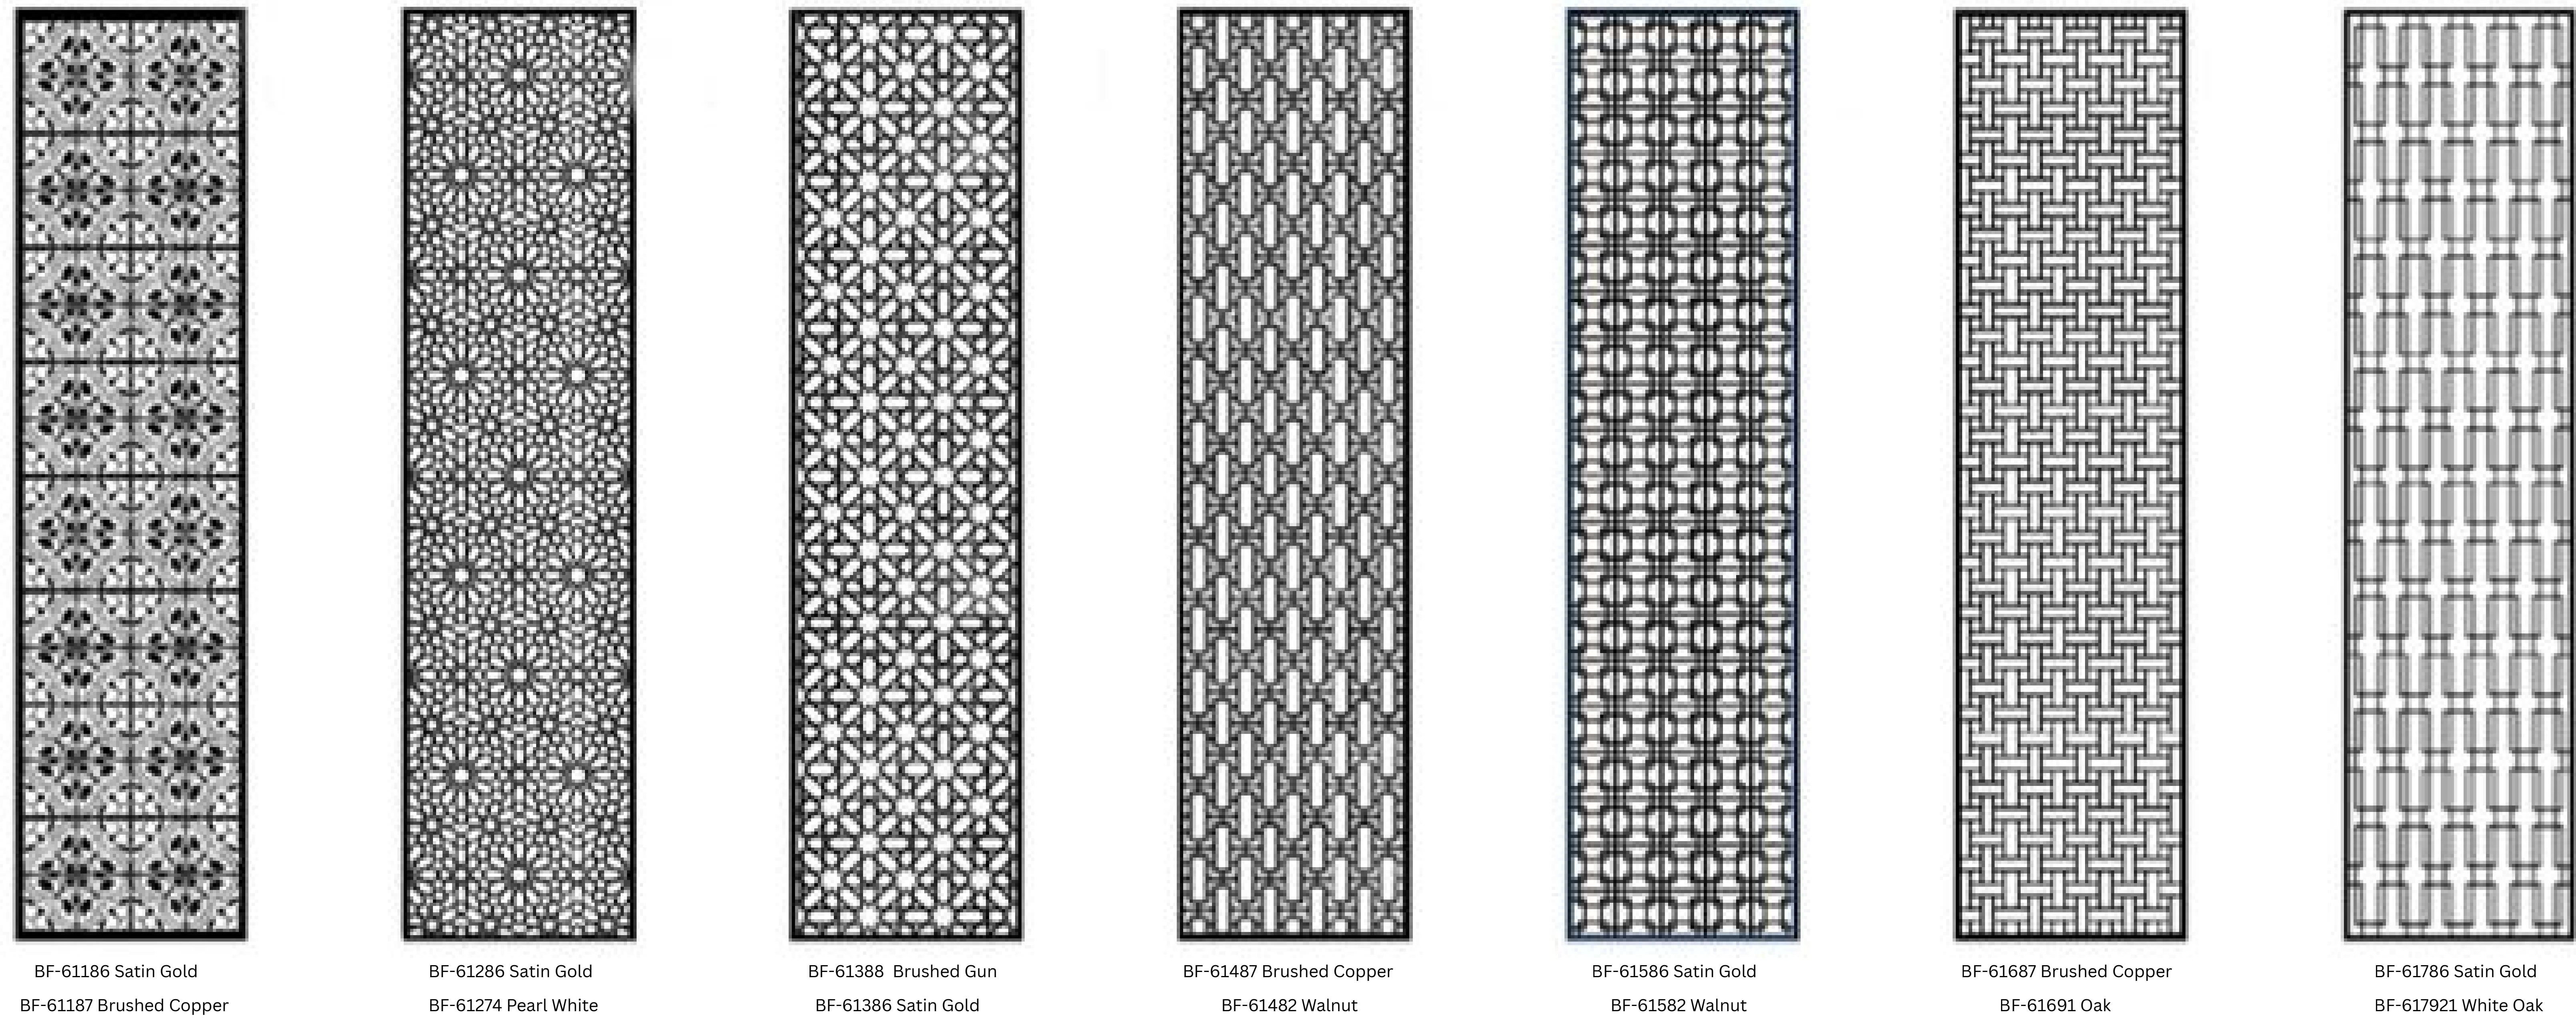

Manufacturing Method : CNC Machine

- ✓ Lightweight & Easy to Handle – Perfect for quick installation and transport
- ✓ Smooth Surface Finish – Matching with our Fluted & Match Panel
- ✓ Easy to Cut & Shape – Great for CNC machining and custom designs
- ✓ Cost-Effective – Offers a premium look at an affordable price
- ✓ Moisture & Warp Resistant – Maintains form in various environments

Size : W600mm X H2400mm X T15mm

PROFILE

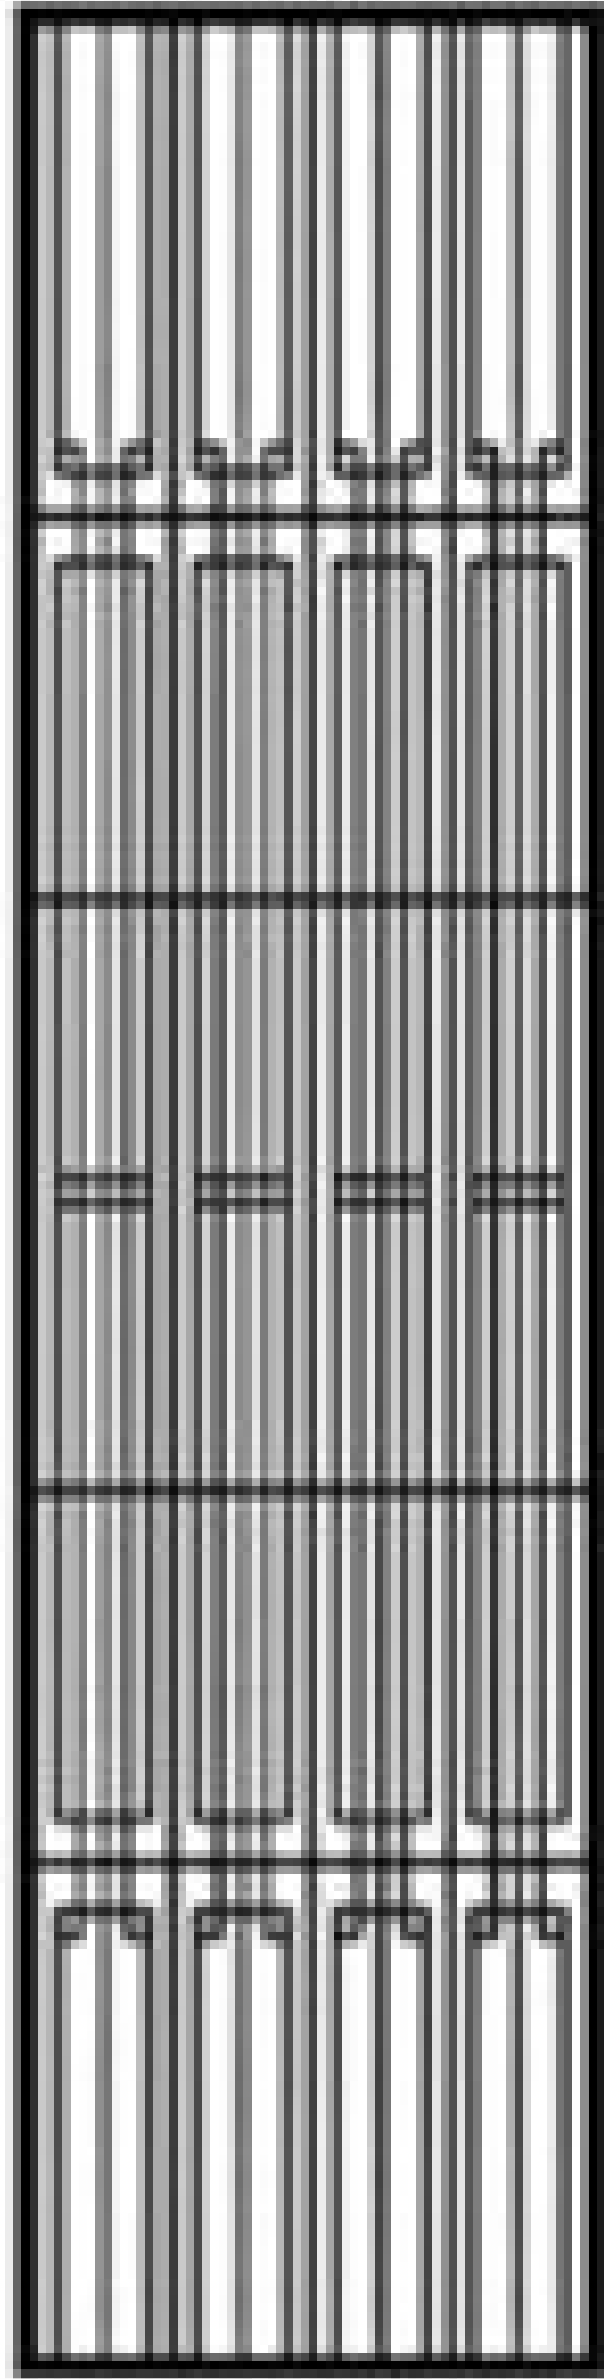

PVC GRILLE PANEL – SEAMLESS STYLE WITH VENEER & METALLIC MELAMINE FINISHES

Elevate your interiors with the PVC Grille Panel, now available in a range of veneer and metallic melamine finishes. Designed for versatility, these panels can be used as divider screens, feature walls, or decorative ceilings, adding texture and elegance to any space. Crafted from durable PVC form board and precision-cut using CNC technology, they offer both style and functionality. What sets these panels apart is their ability to perfectly match with our Fluted Panels and Match Panels, creating a cohesive and harmonized design throughout your interior. Whether you're going for a modern, natural, or luxurious look, the PVC Grille Panel brings it all together with seamless coordination and visual impact.

PVC GRILLE PANEL – THE SMART ALTERNATIVE TO METAL AND SOLID WOOD

The PVC Grille Panel offers the perfect balance of aesthetics, durability, and practicality, making it an ideal alternative to traditional metal or solid wood panels. Crafted from high-quality PVC form board and precision-cut with CNC technology, these panels provide the elegant look of wood or metal without the added weight, cost, or maintenance. Unlike solid wood, PVC panels are moisture-resistant, termite-proof, and lightweight, making them easier to install and suitable for a wide range of interior applications—from divider screens and feature walls to decorative ceilings. With a variety of veneers and melamine finishes to choose from, the PVC Grille Panel delivers sophisticated design with long-lasting performance.

PVC GRILLE PANEL — MATCHING PANEL

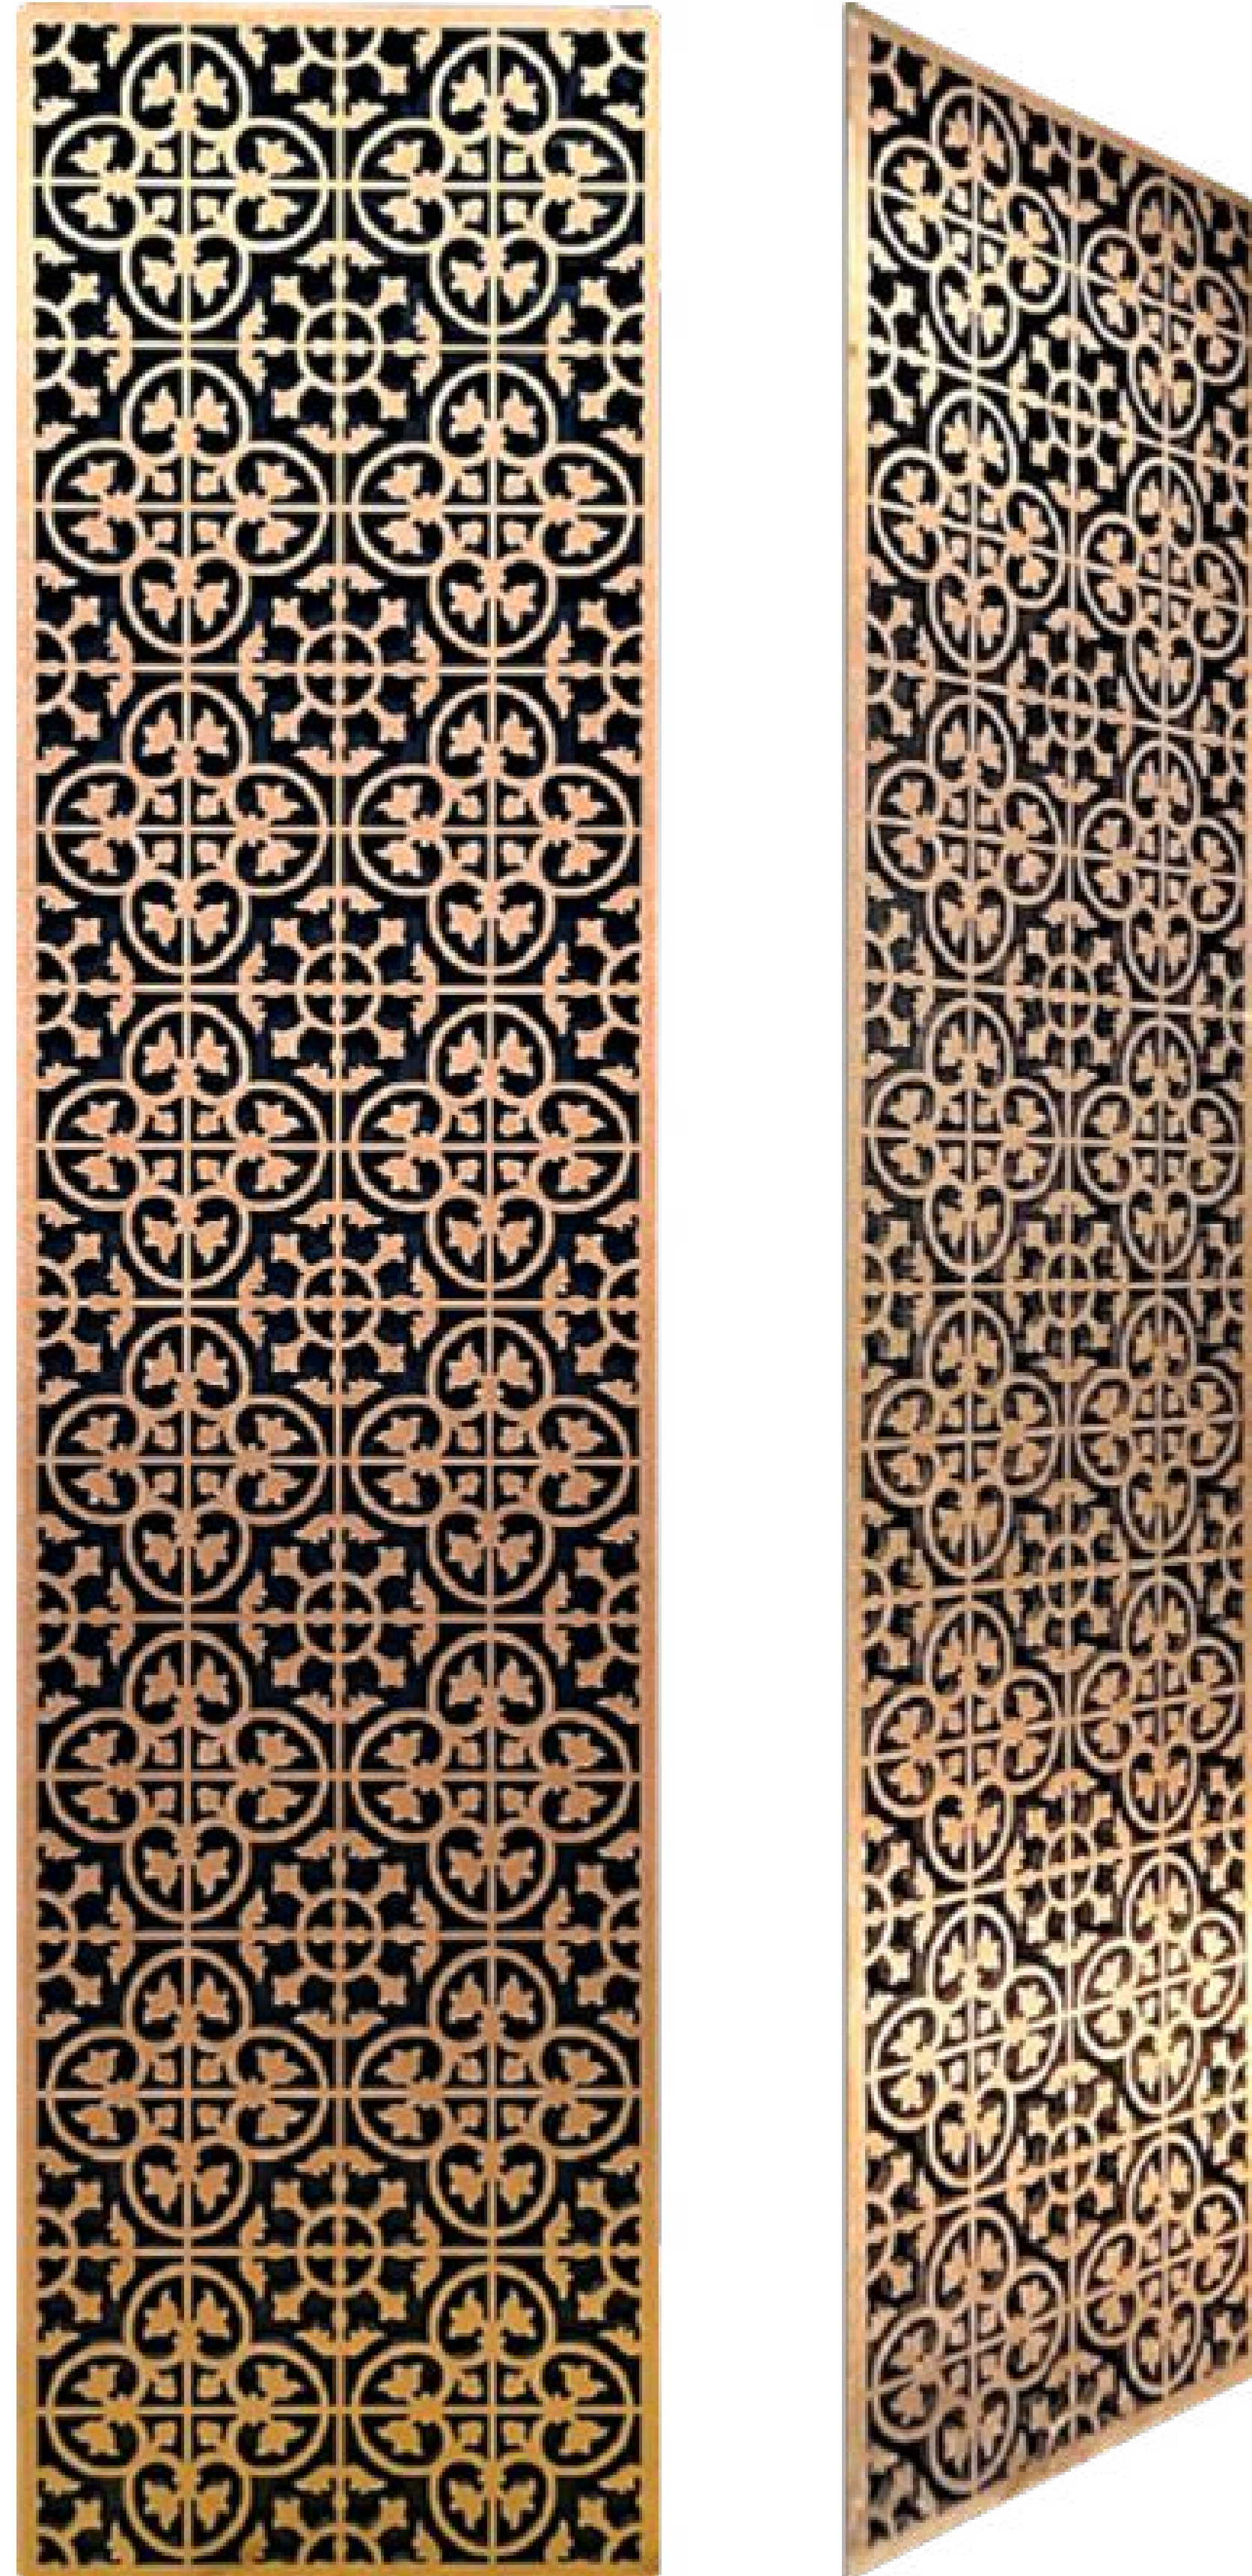

FLUTED PANEL

Our Fluted Panel is designed to pair effortlessly with the PVC Grille Panel, thanks to their matching veneer and melamine finishes. This perfect alignment in texture and tone allows you to create a cohesive and visually balanced interior, whether you're combining feature walls, divider screens, or ceiling elements.

MATCH PANEL

The Match Panel pairs effortlessly with the PVC Grille Panel thanks to their matching veneer and melamine finishes. This ensures a harmonious and cohesive look, combining clean elegance with decorative detail—perfect for walls, ceilings, and partitions in any interior setting.
